| An e-Government initiative to speed up the process of house conveyancing is being implemented across the UK. The National Land Information | | | | |
| System (NLIS) will allow Land Charge searches to be made online through a central hub and channel. This requires the Council to adopt different | tial | | | |
| pricing. If agreed, the charge to the end user will be as above, and the provider takes 18% commission charge. | | | | |
