

# Community Safety Plan 2017-2020

[thanetcommunitysafety.org](http://thanetcommunitysafety.org)

# What is a Community Safety Partnership (CSP)?

The Crime and Disorder Act 1998, introduced a statutory obligation for certain agencies to join together and formally work to improve community safety and reduce the underlying causes of crime and reoffending.

The partnership has to annually assess local needs and agree and produce an action plan that sets out how they are going to do this.

## Membership

Thanet Community Safety Partnership is made up of;

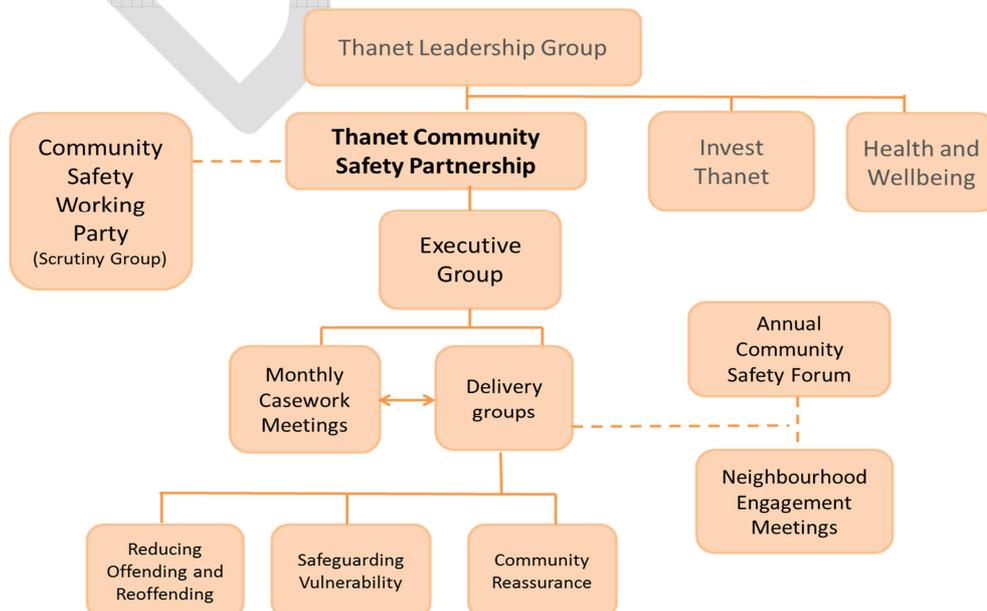

Thanet District Council, Kent Police, Kent County Council, Kent Fire and Rescue Service , Probation Services and Thanet Clinical Commissioning Group (for local health services)

The partnership can also co-adopt members, these include Department for Work and Pensions and the Domestic Abuse Forum.

## Accountability

The partnership has to consult with its stakeholders to ensure local concerns are incorporated. An annual perception survey and Community Safety forum event takes place each year in January and representatives from partnership agencies attend quarterly area specific resident led Neighbourhood Engagement Meetings.

## Partnership structure

# Data

## Demographics

- ⇒ The Thanet district has approximately 139,800 people, which is the fourth largest local authority district in the Kent County Council area. Over the last 10 years Thanet's population has grown by 8.1% which equates to an extra 10,500 people. This is the second lowest growth rate in Kent. Forecasts suggest over the next 15 years the population will grow further by 21.5%, which is higher than most other areas anticipated growth. (Office for National statistics 2015)
- ⇒ Thanet District has an older age profile compared to the county average, with a greater proportion of 55+ year olds than the average for the KCC area, Particularly females. Thanet also has a lower percentage of those aged 20-54 year olds. Particularly males.
- ⇒ 95.5% of Thanet's population is white British, with 4.5% of Black Minority Ethnic (BME) origin, which is below the county average of 6.3% (2011 census ONS)
- ⇒ In 2015 Thanet District was ranked as the most deprived district in Kent (out of 12 districts, with the most deprived being ranked 1). Nationally, Thanet ranks 28<sup>th</sup> out of 326 local authority districts in England. This rank places it within England's 10% most deprived areas. (Indices of deprivation DCLG 2015)

## Tourism

- ⇒ Thanet's visitor economy grew 19% in 2015, making it the biggest district tourism growth in Kent.
- ⇒ Whilst nationally visitors to England dropped 5%, tourism to Margate, Broadstairs and Ramsgate rose 16%, welcoming nearly 4 million visitors. (Visit Kent 2016)
- ⇒ For those wanting to invest in property, house prices in Thanet have risen by up to 34% since 2012 (Homestart 2016)

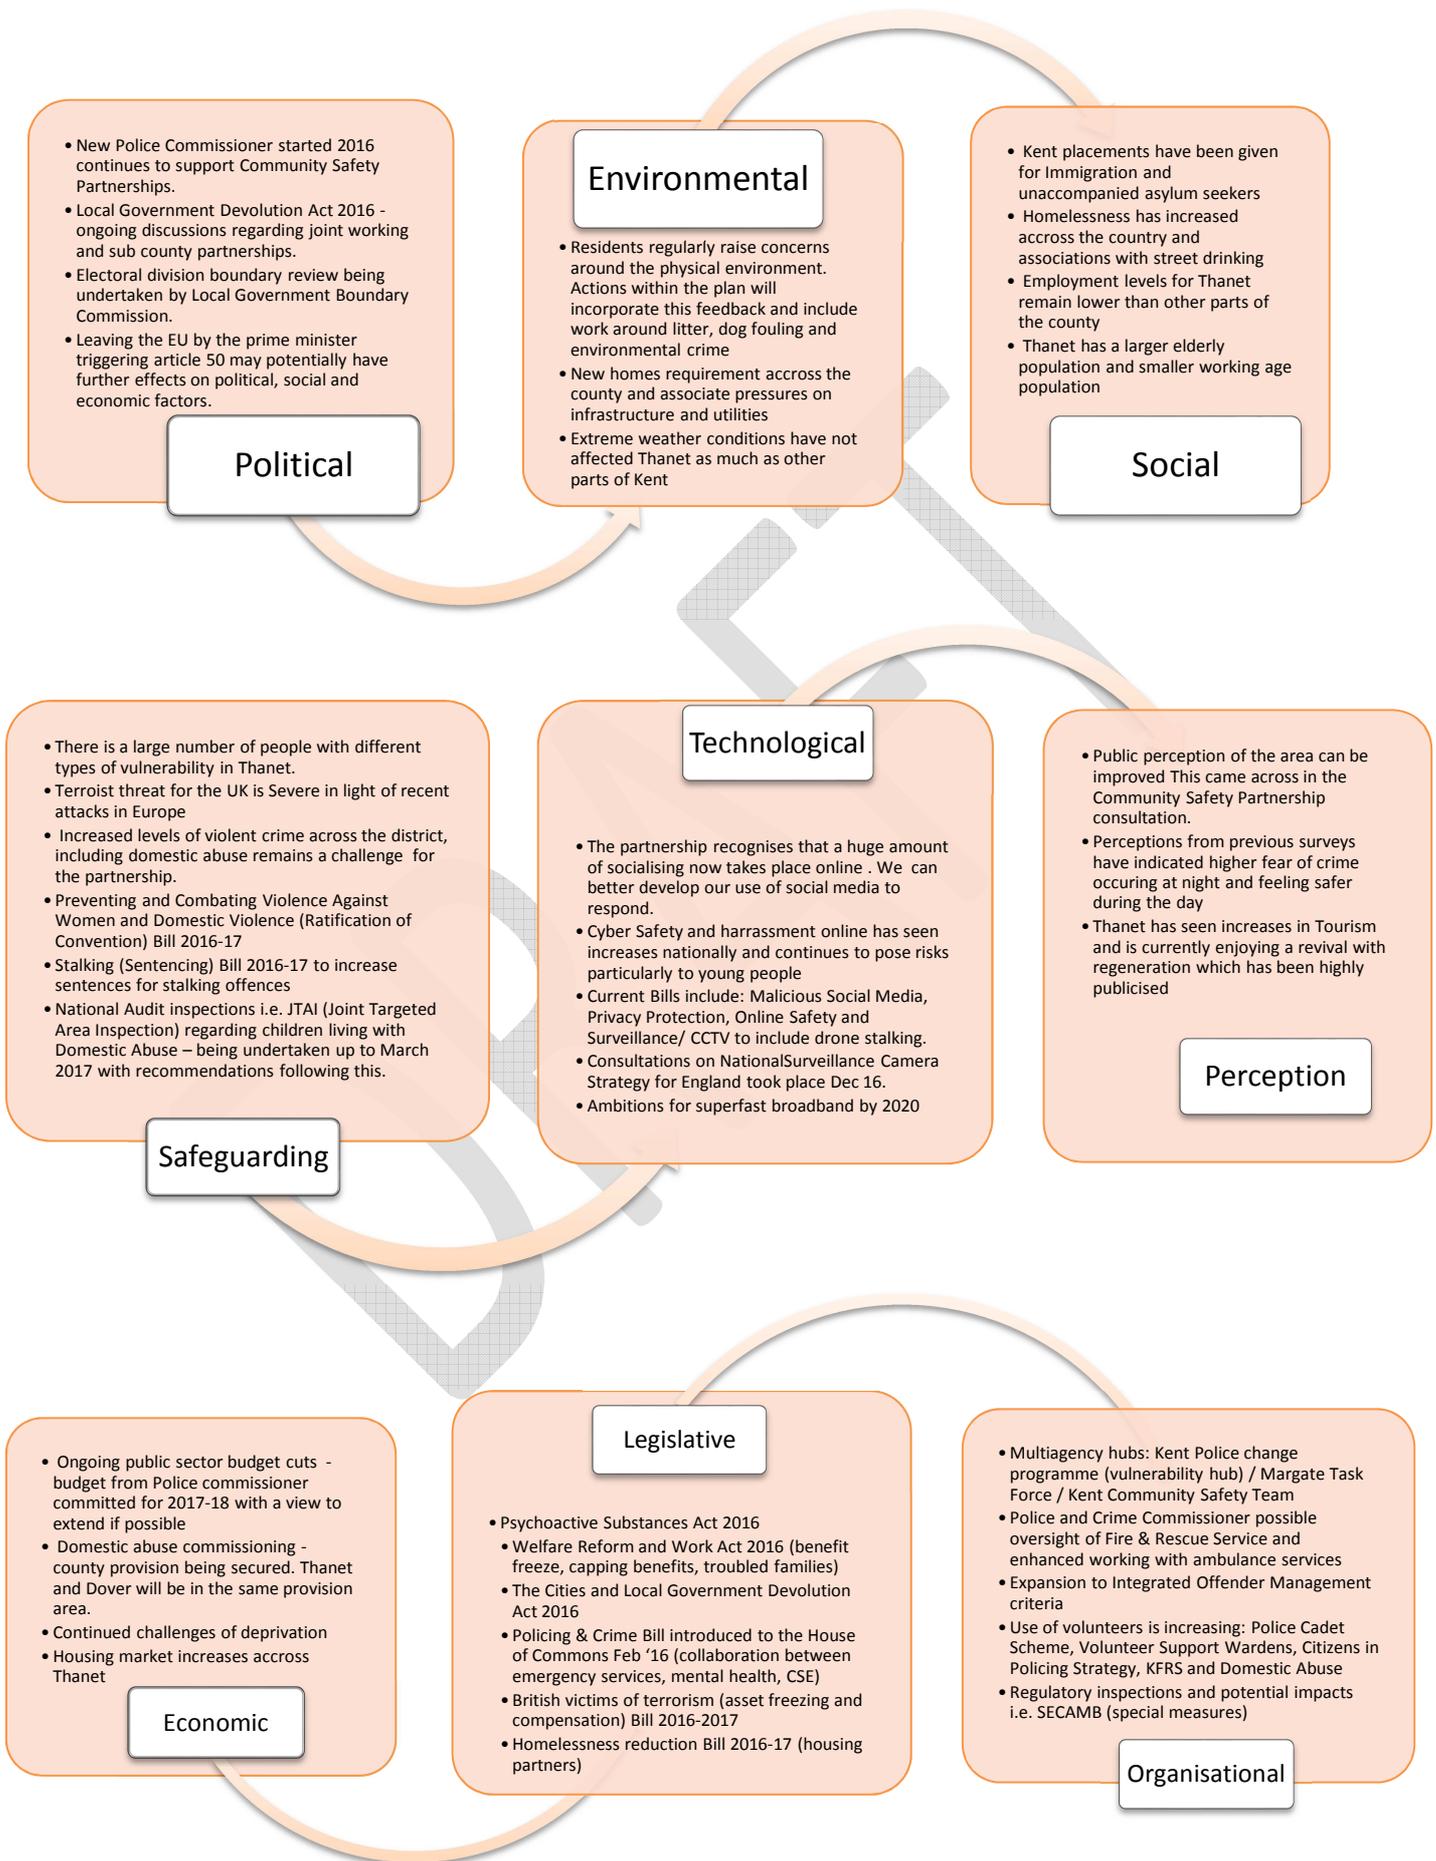

## Crime

- ⇒ The data for all recorded victim-based crimes for Thanet shows an increase of 13.7 per cent (Jan – Dec 2016) compared to the same period in 2015; which is slightly higher than the force-wide figure of 13.2 per cent. An increase in public confidence in reporting crime, improved recording practices, the introduction of new crime types and the inclusion of offences not previously recorded have all influenced these statistics.
- ⇒ The data is also reflecting trends across the country. Nationally, recorded crime figures are showing increases of 8 per cent compared with the previous year (Office for National Statistics September 2016).

In addition to data trends the partnership also considers additional challenges, such as Political, Environmental, Technological and Legal factors which may have an impact on delivery.

# Underlying themes:

# Engagement feedback

- Engagement survey on community perceptions and partnership focus areas for 2017-2020 was held during January and advertised in the local newspaper, online, made available in hard copy on freepost return and directly mailed out to random households. 340 responses were received.
- Responses on perceptions of safety were divided, when asked: In the past 12 months how have feelings on safety changed:
  - 5.7% felt things had improved, 47.9% 'stayed the same' and 46.4% had deteriorated.
- The two factors most influencing perception were 'Groups hanging around' (67.4%) and 'How the area looks – eg run down' (55.1%)
- The issues respondents felt they were most concerned about in order or priority were: Dog fouling, Litter, Nuisance parking, people dealing drugs, intimidating groups and flytipping.
- 75.9% agreed or strongly agreed with the proposed focus areas for the partnership, of reducing offending and reoffending, safeguarding vulnerable people and community reassurance.
